

OPT IN TO TEXT MESSAGING THIS WEEK!

To All New and Returning KPR Schools Families:

Schools will be able to communicate with families through text messaging starting September 2019! This is a quick and easy way to receive information about school events, attendance, and more.

On Thursday evening, all families with a cell phone listed in our system, who have not already opted in, will receive the following text message from School Messenger asking you to opt in to this service:

'Receive KPR Schools alerts. Reply Y 2 confirm, HELP 4 info. Msg&data rates may apply. Msg freq varies. schoolmessenger.com/txt'

Here's a quote from one of our parents who already uses the text messaging service:

"As a parent, I love the text messaging from the school for staying informed on what's going on or coming up. The messages are always direct to the point with the option of a link to follow to get more detailed information if needed. As a text, I can read it whenever it's convenient for me, and it's harder to forget it like emails or pieces of paper laying around. The messages are easy to find again if needed. One of the best features for me is that it was easy to opt in to and I don't have to remember a username and password to access and read the messages."

You can opt into this free service* now just by sending a text message to **978338** with the message of **"Y"** or **"Yes"**.

You can opt out of these messages at any time by simply replying to one of our messages with **"Stop"**. If you choose not to opt in to text messaging, you can still receive school information via email. You can also decide which types of communications you receive, and how, through the School Messenger App under Preferences, or by logging into <https://go.schoolmessenger.com/#/account/login>.

SchoolMessenger is compliant with the Personal Information Protection and Electronic Documents Act. Your personal information is safe and will never be given or sold to anyone.
